JOHNSON'S ANODYNE LINIMENT

All who use it are amazed at its power and are loud in its praise ever after.

It will cure every ache, every lameness, every soreness, everywhere; either Internal or External. It produces a permanent increase of vital activity in the parts, and by its electric energy excites the organs to more vigorous exertion, thus giving them the power to throw off, prevent and cure disease. There is not a medicine in use today which possesses the confidence of the public to so great an extent. The best evidence of its extraordinary value is the fact that in the state where it was originated more than eighty years ago it is still the leading family medicine. The sale there is steadily increasing. Its special province is the treatment of inflammation. Inflammation is an unsound condition of any part of the body, manifested outwardly by redness, swelling and heat; inwardly by congestion of the blood vessels and growth of unsound tissue, causing irritation, pain and disease. A majority of the diseases of mankind begin with or are accompanied by inflammation. It is unequalled. It is the best. It is the oldest.

NO MORE MUSTY EGGS

If You Use the Safety Egg Carrier.

The only perfect Carrier for the transportation of eggs. There is just enough spring on the trays to prevent the least breakage. The case is also open on the ends, which prevents the eggs from becoming musty. No dealer in fancy eggs can afford to use any other, as eggs sell readily at one and two cents per dozen more by being shown up in neat and attractive carriers. Trays are easily removed, and can be turned bottom up without spilling an egg.

Formerly manufactured by Safety Egg Carrier Co., Harvard, Mass., and Winchester Box Mfg. Co., Baldwinville, Mass.; now made exclusively by

Go Tell Every Mother

It's Unlike Any Other

Do not forget the very important and useful fact that it is strictly for family use. Every mother should always have it in the house, to relieve and cure the many common ills which will occur in every family as long as life has woes. For croup, colds, coughs, cramps and pain, it is the sovereign cure; always ready to use.

Something New Every Day and Hour.

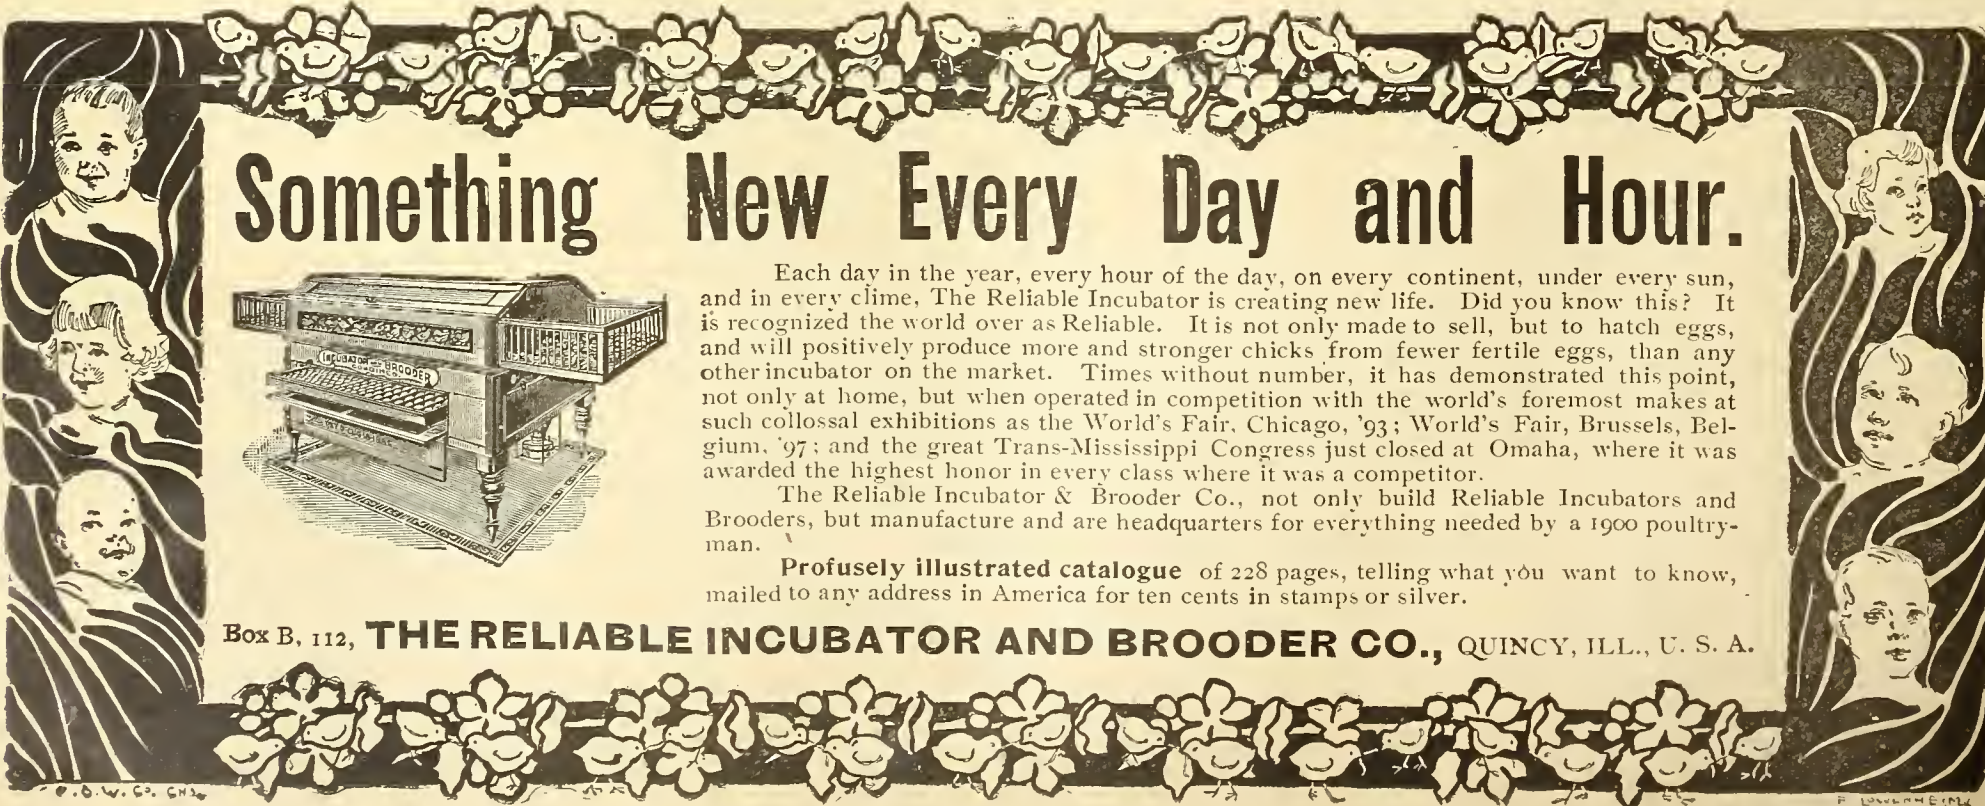

Each day in the year, every hour of the day, on every continent, under every sun, and in every clime, The Reliable Incubator is creating new life. Did you know this? It is recognized the world over as Reliable. It is not only made to sell, but to hatch eggs, and will positively produce more and stronger chicks from fewer fertile eggs, than any other incubator on the market. Times without number, it has demonstrated this point, not only at home, but when operated in competition with the world's foremost makes at such colossal exhibitions as the World's Fair, Chicago, '93; World's Fair, Brussels, Belgium, '97; and the great Trans-Mississippi Congress just closed at Omaha, where it was awarded the highest honor in every class where it was a competitor.

The Reliable Incubator & Brooder Co., not only build Reliable Incubators and Brooders, but manufacture and are headquarters for everything needed by a 1900 poultryman.

Profusely illustrated catalogue of 228 pages, telling what you want to know, mailed to any address in America for ten cents in stamps or silver.

Eggs Sure to Hatch

—the kind that will produce strong, vigorous chicks, depend upon the vitality of the hen that lays them. She must not be fed on heating, debilitating food. Really the best thing for the breeding hen is our

PIONEER CLOVER MEAL.

It makes young chicks grow rapidly. Wonderful for broilers. Makes sweet, tender, high-flavored flesh. It is made from clean clover hay, cured by our own special process so as to preserve all the bright green color and the delicious aroma and essential oils. It is ground into the finest meal by our powerful and specially designed machinery. No additions, no adulterations, but clean, pure, sweet and wholesome poultry food. Then, too, it is quite cheap—only costs: 50 lbs. \$1; 100 lbs. \$2; 5 lbs. 25c. Use it this winter and get eggs when eggs are worth money. Sample and editorial endorsements FREE.

THESE ARE GREAT FAVORITES

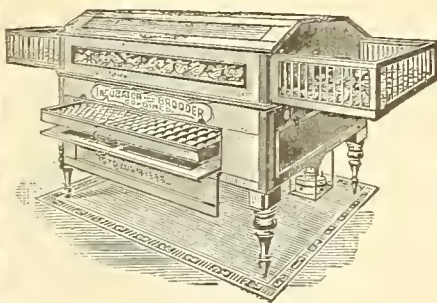

WHAT—THE RELIABLE INCUBATOR AND BROODER.

WHY—Because for more than twelve years they have demonstrated their ability to hatch a larger percentage of live chicks from a given number of fertile eggs, and successfully brood a large number of chicks to maturity than any similar combination of machines on the market

WHEN—At any time, either in the dead of winter or in the middle of the summer—spring-time or autumn, they work with the same regularity and reliability always producing good results.

WHERE—Everywhere, from the Atlantic to the Pacific, from the Great Lakes to the Gulf, and in many foreign lands, and in every variety of climate.

WHO—By THE RELIABLE INCUBATOR AND BROODER CO. of QUINCY, ILLS. who will send you their new book on poultry for 10 cents, which will give you a complete history of artificial incubation from its earliest practice to the present, and many other things of great value to the poultryman.

All this shouting, Mack's dark egg strain of W. Wyandottes bred for utility and beauty, was the only strain to win its share of the ribbons in all three departments (live and dressed poultry, and eggs) at the Boston show. His 4th prize cockerel also won the special for the whitest male in the Wyandotte class. "A very nice bird in color, comb, and good in shape, very close to winner of first in our opinion."—*American Fancier*.

Exhibited eggs only at New York, easily won first. The next week at a hotly contested show at Woodstock, Vt., won 1st on pen; 1, 2 and 4 on cock's; 2 on cock; 1 and 2 on pullets; 1 and 2 on hens; 1 and 2 on best dozen brown eggs; special for heaviest dozen eggs; and special for the highest scoring cock 1 and pullet of any variety (nearly 500 entries). MY BREEDING YARDS for 1899

Have improved 50 per cent over those of last year. I can conscientiously say that I have two or three specimens of phenomenal merit where I had one last year.

MY BARRED PLYMOUTH ROCKS

have, through years of breeding, become very uniform. My cockerel matings are headed by four first prize winning males, and the females are all of the best type of cockerel breeders, and nine-tenths of these sired first prize males. My pullet matings are made up of the same blood that has repeatedly won first prizes at Boston, and are stronger and surer breeders than ever before.

Something New Every Day and Hour.

Each day in the year, every hour of the day, on every continent, under every sun, and in every clime, The Reliable Incubator is creating new life. Did you know this? It is recognized the world over as Reliable. It is not only made to sell, but to hatch eggs, and will positively produce more and stronger chicks from fewer fertile eggs, than any other incubator on the market. Times without number, it has demonstrated this point, not only at home, but when operated in competition with the world's foremost makes at such colossal exhibitions as the World's Fair, Chicago, '93; World's Fair, Brussels, Belgium, '97; and the great Trans-Mississippi Congress just closed at Omaha, where it was awarded the highest honor in every class where it was a competitor.

The Reliable Incubator & Brooder Co., not only build Reliable Incubators and Brooders, but manufacture and are headquarters for everything needed by a 1900 poultryman.

Profusely illustrated catalogue of 228 pages, telling what you want to know, mailed to any address in America for ten cents in stamps or silver.

GET THE FLOWER CITY INCUBATORS AND BROODERS. They are the world's standard best.
The following testimonial tells the whole story:

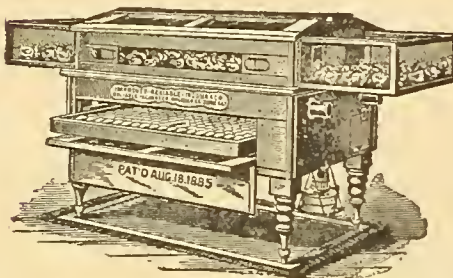

Fremont, Ohio, March 30th, 1899.

Gentlemen:—I hand you the following testimonial you
so well deserve. The 200-egg Hot Air Incubator purchased
from you has been such a surprise to me. My first hatch
out of 150 eggs brought me 139 nice stout fluffy chicks. I
have tried artificial incubation for 12 years, and tried a
dozen different makes in that time, and I succeeded in only
hatching a few miserable scrawny chicks with these differ-
ent machines. The heat in your incubators is so easily
governed by your regulator, which is the most sensitive of
any I have ever seen. Anyone contemplating the purchase
of an incubator is certain of success if they use the Flower
City machine. Wishing you ever success,
Yours truly, C. F. MICHAEL.

Proof of Quality.

St. Johns, P. Q., Feb. 7, 1899.
Mr. E. B. Thompson, Dear Sir—The Barred Rocks hatched from eggs I received from you last spring won 1st and 2d prizes on breeding pens, 1st and 2d cockerels, 1st and 2d pullets, and 1st pair at the St. Johns show, December last.
At Montreal, Jan., 1899, on 3 entries only, won 1st on breeding pen, 1st on pullet, and 2d on cockerel. Yours truly,
ROBT. H. ALPAUGH.

The following testimonial tells the whole story:

Fremont, Ohio, March 30th, 1899.
Gentlemen:—I hand you the following testimonial you so well deserve. The 200-egg Hot Air Incubator purchased from you has been such a surprise to me. My first hatch out of 150 eggs brought me 139 nice stout fluffy chicks. I have tried artificial incubation for 12 years, and tried a dozen different makes in that time, and I succeeded in only hatching a few miserable scrawny chicks with these different machines. The heat in your incubators is so easily governed by your regulator, which is the most sensitive of any I have ever seen. Anyone contemplating the purchase of an incubator is certain of success if they use the Flower City machine. Wishing you ever success.
Yours truly,
C. F. MICHAEL.

A SOLID FACT.

LEFFEL'S BARRED ROCKS AGAIN TRIUMPHANT!

At Springfield Fancier Association, Dec. 27th to 30th, I won all prizes offered on Barred Plymouth Rocks. Cocks 92; Cock 1's 94, 94, 93, 93, 92, 92; Hens 94, 94, 93, 92, 92, 92; Pullets, 94, 94, 94, 94, 93, 93, 93, 92. Breeding Pens—1st, 188 3-8; 2d, 187 7-8; 3d, 186 3-4. F. J. Marshall, judge, Middletown.

At the great Cleveland show, held Dec., won 1st and 2d cocks, scoring 92 points each; 1st hen 94; 2d hen 93; 4th hen 92. Also won 1st, 2d, and 3d cockerels, scoring 94, 93 and 92 respectively; 1st, 2d, 3d, and 4th pullets, scoring 94, 93, 93 and 92 respectively. Also won 1st breeding pen, 188 3-4; 2d breeding pen, 187 7-8. Mr. L. G. Jarvis of Guelph, Canada, was judge.

My clean sweep of all the moneyed prizes at Cleveland and Springfield, O., shows has never been approached, and stand alone and unequalled: my record of all moneyed prizes is record breaker.

At the Dayton, Ohio show, Mr. I. K. Felch gave one of Mr. Leffel's cockerels, a bird of his own breeding, a score of 95 points, the highest score ever given by this judge to a Barred Plymouth Rock cockerel. Send for catalogue giving show record for 6 years. (Not equalled by any breeder).

After the rush of egg trade is past, usually May 15th, I can fill orders of choice selected stock from my breeding yards at reduced prices.

MY BREEDING YARDS for 1899

Have improved 50 per cent over those of last year. I can conscientiously say that I have two or three specimens of phenomenal merit where I had one last year.

MY BARRED PLYMOUTH ROCKS

have, through years of breeding, become very uniform. My cockerel matings are headed by four first prize winning males, and the females are all of the best type of cockerel breeders, and ninetenths of these sired by first prize males. My pullet matings are made up of the same blood that has repeatedly won first prizes at Boston, and are stronger and surer breeders than ever before.

MY BROWN LEGHORNS

show the results of systematic breeding, and are steadily improving. My cockerel matings will be headed by first prize winners, and their sires; and the females come from winning sires. My pullet matings are established upon first prize winning blood that rests on first prize hens and pullets at the greatest of American shows.

EGGS \$3 per 13. } You get just what I use myself.
\$10 per 50. } Your chance is just as good.

A SPECIAL LINE OF BREEDING COCKERELS FOR SALE.

NO MATTER HOW COLD IT GETS

little chicks may be successfully brooded if you only know what means to employ. The brooder that sits flat on the ground won't do, there is too much risk from colds, congestion, diarrhoea, etc. It must be raised off the ground. This brings us to

The \$5.00 Champion Brooder.

IT IS KNOWN BY ITS WORK.

It is simple and effective in construction and at its price is the very best article of the kind on the market. The secret of its great success is in its effective and perfect radiation and distribution of heat. It is double floored which prevents entirely cold feet—warm feet means warm chicks. It is in no way influenced by sudden changes in temperature. It is simple and perfect in ventilation, affording always plenty of fresh warm air. Because of its perfect construction it requires the minimum of fuel in heating.

This is what Michael K. Boyer, the greatest living authority on artificial incubation, says of the Champion Brooder in the May issue of "A Few Hens":

"The Champion Brooder manufactured by J. A. Bennett & Sons, is giving the very best satisfaction and after a fair trial safely recommend it. At \$5, it is the cheapest and best of the good brooders on the market."

Don't buy a brooder of any kind until you have seen our illustrated and descriptive catalogue of the Champion. We send it FREE to all inquirers. Address,

Keep Your Chickens

STRONG and HEALTHY.

Those who succeed best raising poultry for profit are those who commence with little chicks, giving small doses of SHERIDAN'S CONDITION POWDER twice a week; then a little larger doses, and so on to the time when getting the pullets ready for early fall laying, a dose say of one teaspoonful to each quart of food, and so continue to use it, as one customer says she does, "from the cradle to the grave," and you will succeed nine times in ten, and have plenty of eggs to sell in the fall and winter months when prices are highest.

To make your Poultry pay, first hatch Strong, Healthy Chickens.

Then keep them healthy and growing if you want the Pullets to lay when five months old. When hens lay eggs for hatching, mix in their food every other day, SHERIDAN'S POWDER. It strengthens the hens; makes the rooster more vigorous; finally you get more fertile eggs.

It is a fact based upon the declaration of a noble contributor to science, that through the medium of the circulating blood, any particular organ of a living animal may be reached and stimulated into renewed vigor and activity if we will only administer the proper material to produce the desired effect.

No Matter What Kind of Foods You Use!

Sheridan's Condition Powder

is needed with it to assure perfect assimilation of the food elements necessary to produce eggs. It is absolutely pure; Highly concentrated; Most economical, because such small doses; No other kind one-fourth as strong; In quantity costs less than one-tenth cent a day per hen. In use over 30 years.

Sold by Druggists, Grocers and Feed Dealers, or sent by mail. Large cans most economical to buy.

IF YOU CAN'T GET IT NEAR HOME, SEND TO US. A/K FIRST. We send one pack, 25 cts; five, \$1.00. A two-pound can, \$1.20; Six, \$5.00. Express paid. Sample copy "best Poultry paper" sent free. **L. S. JOHNSON & CO., 22 Custom House St., Boston, Mass.**

MY BREEDING YARDS for 1899

Have improved 50 per cent over those of last year. I can conscientiously say that I have two or three specimens of phenomenal merit where I had one last year.

MY BARRED PLYMOUTH ROCKS

have, through years of breeding, become very uniform. My cockerel matings are headed by four first prize winning males, and the females are all of the best type of cockerel breeders, and nine-tenths of these sired by first prize males. My pullet matings are made up of the same blood that has repeatedly won first prizes at Boston, and are stronger and surer breeders than ever before.

MY BROWN LEGHORNS

show the results of systematic breeding, and are steadily improving. My cockerel matings will be headed by first prize winners, and their sires; and the females come from winning sires. My pullet matings are established upon first prize winning blood that rests on first prize hens and pullets at the greatest of American shows.

EGGS \$3 per 13. } You get just what I use myself.
\$10 per 50. } Your chance is just as good.

A SPECIAL LINE OF BREEDING COCKERELS FOR SALE

Remember, my record is at the greatest shows ever held in America.

NO MATTER HOW COLD IT GETS

Little chicks may be successfully brooded if you only know what means to employ. The brooder that sits flat on the ground won't do, there is too much risk from colds, congestion, diarrhoea, etc. It must be raised off the ground. This brings us to

The \$5.00 Champion Brooder.

IT IS KNOWN BY ITS WORK.

It is simple and effective in construction and at its price is the very best article of the kind on the market. The secret of its great success is in its effective and perfect radiation and distribution of heat. It is double floored which prevents entirely cold feet—warm feet means warm chicks. Is in no way influenced by sudden changes in temperature. It is simple and perfect in ventilation, affording always plenty of fresh warm air. Because of its perfect construction it requires the minimum of fuel in heating.

This is what Michael K. Boyer, the greatest living authority on artificial incubation, says of the Champion Brooder in the May issue of "A Few Hens":

"The Champion Brooder manufactured by J. A. Bennett & Sons, is giving the very best satisfaction and after a fair trial safely recommend it. At \$5, it is the cheapest and best of the good brooders on the market."

Don't buy a brooder of any kind until you have seen our illustrated and descriptive catalogue of the Champion. We send it FREE to all inquirers. Address,

HOW MUCH CAN I SAVE?

This is a question that every man should ask himself when it comes to a business proposition. For instance, we manufacture vehicles and harness and sell them to you direct from our factory at wholesale prices. On this plan the saving to you is about 35 per cent; that is, you would have to pay your local dealer or agent about that much more than you pay us for the same quality of goods.

Is not this item worth saving? We make 170 styles of vehicles and 65 styles of harness and are the largest manufacturers of vehicles and harness in the world selling to the consumer exclusively. We make every article we sell and ship our goods anywhere for examination and guarantee everything. You have the advantage of large selection, newest designs, latest styles, &c. Above all you have a guarantee of quality at a reasonable price. 144-page illustrated catalogue FREE.

WYCKOFF'S WHITE LEGHORNS

AMERICA'S BUSINESS HEN.

Have been carefully bred and improved for the past 18 years, regardless of expense, and on the strictest application of the true principles of Leghorn breeding with a result that fully justifies their acknowledgment everywhere as the world's greatest laying strain of S. C. White Leghorns, combined with the highest degree of excellence in standard qualities, size, strength and vigor, and layers of large, pure white, perfectly shaped eggs that command the highest premium in the finest city markets. Hundreds of unsolicited testimonials recently received from customers in all parts of the country, testify not only to their superior laying qualities, but also to the many victories and high scores awarded them in the show rooms. Good breeding stock in early cockerels and 1897 hatched hens yet for sale. Eggs for hatching from my choicest selections and matings, only the cream of over 1200 carefully bred birds. No close breeding ever practiced in my yards. Eggs \$2 per 15; \$3.75 per 30; \$5 per 45; \$10 per 100. Large illustrated and descriptive circular free.

I Had to Disappoint People

Who wanted my stock last season—they waited too long. I am raising about 1000 chicks this year, my kind, you know—winning Golden Wyandottes—and I hope to be able to fill all orders, but would advise you to order early, just the same. My breeding pens are all headed by winners of firsts, seconds, and thirds, at New York and Boston, and it will be strange if they don't produce some prize winners. Show birds ready for delivery August 15. Send for my handsome booklet, and "read up" on Borman's "Beauty Strain" of winning Golden Wyandottes.

FRED BORMAN, Danbury, Conn.

OUR INCUBATORS EQUAL THE BEST.

Keep Your Chickens

STRONG and HEALTHY.

Those who succeed best raising poultry for profit are those who commence with little chicks, giving small doses of SHERIDAN'S CONDITION POWDER twice a week; then a little larger doses, and so on to the time when getting the pullets ready for early fall laying, a dose say of one teaspoonful to each quart of food, and so continue to use it, as one customer says she does, "from the cradle to the grave," and you will succeed nine times in ten, and have plenty of eggs to sell in the fall and winter months when prices are highest.

To make your Poultry pay, first hatch Strong, Healthy Chickens.

Then keep them healthy and growing if you want the Pullets to lay when five months old. When hens lay eggs for hatching, mix in their food every other day, SHERIDAN'S POWDER. It strengthens the hens; makes the rooster more vigorous; finally you get more fertile eggs.

It is a fact based upon the declaration of a noble contributor to science, that through the medium of the circulating blood, any particular organ of a living animal may be reached and stimulated into renewed vigor and activity if we will only administer the proper material to produce the desired effect.

No Matter What Kind of Foods You Use!

Sheridan's Condition Powder

is needed with it to assure perfect assimilation of the food elements necessary to produce eggs. It is absolutely pure; Highly concentrated; Most economical, because such small doses; No other kind one-fourth as strong; In quantity costs less than one-tenth cent a day per hen. In use over 30 years.

Sold by Druggists, Grocers and Feed Dealers, or sent by mail. Large cans most economical to buy.

IF YOU CAN'T GET IT NEAR HOME, SEND TO US. ASK FIRST. We send one pack, 25 cts; five, \$1.00. A two-pound can, \$1.20; Six, \$5.00. Express paid. Sample copy "best Poultry paper" sent free. **I. S. JOHNSON & CO.,** 22 Custom House St., Boston, Mass.

BARGAINS IN INCUBATORS.

No Supplied Moisture. Self-Regulating and Self-Ventilating.

It is well known to readers of the newspapers that prices generally have been advancing steadily here of late, including those for labor, lumber, and metals of all kinds. As a result the prices of all manufactured articles must soon follow suit, including the prices of incubators and brooders. This simply cannot be helped; there is no way of getting around it. The Cyphers Incubator Co., Wayland, New York, therefore hereby give notice to interested persons that so soon as their new catalogue and price list for 1899-1900 is issued, which will be about Nov. 1st to 15th, the prices of their incubators and brooders will be increased fully 20 per cent. All who think favorably of buying a strictly first class incubator this fall or next winter will find it much to their advantage to immediately correspond with the Cyphers Co. in order to obtain what is wanted at the present low prices. The fact is that the Cyphers Co. is in a position JUST NOW to save a limited number of customers from \$7 to \$18 net cash, on single orders for incubators and brooders, depending on the size of machine bought. Write today for full particulars.

THE CYPHERS INCUBATORS ARE BUILT FOR BUSINESS.

Eggs Sure to Hatch

—the kind that will produce strong, vigorous chicks, depend upon the vitality of the hen that lays them. She must not be fed on heating, debilitating food. Really the best thing for the breeding hen is our

PIONEER CLOVER MEAL.

It makes young chicks grow rapidly. Wonderful for broilers. Makes sweet, tender, high-flavored flesh. It is made from clean clover hay, cured by our own special process so as to preserve all the bright green color and the delicious aroma and essential oils. It is ground into the finest meal by our powerful and specially designed machinery. No additions, no adulterations, but clean, pure, sweet and wholesome poultry food. Then, too, it is quite cheap—only costs: 50 lbs. \$1; 100 lbs. \$2; 5 lbs. 25c. Us too, this winter and get eggs when eggs are worth money. Sample and editorial indorsements FREE.

—AS—

It is sure to please you—it is not the cause of further trouble, but puts an end to that that you have already had—so—

If your chicks don't grow, and you don't know why so, Puritan foods will show.

Puritan Poultry Farm is the largest, most elegant, complete and **SUCCESSFUL** establishment on the continent.

Successful means an unequalled record for three years in output—more chicks marketed in '08 than by any three plants combined, and no trouble to do it. You can attain this success if you will follow **Puritan** methods, and start your birds on

Puritan Chick Food

in the winter when fed on **green succulent food.** Nothing supplies it better than roots and vegetables if they are properly prepared.

THE BANNER JUNIOR Root and Vegetable Cutter

prepares all roots and vegetables in the best form for poultry food. Cuts them into fine shavings, easy to consume by chicks or fowls. Makes hens lay double the eggs; makes early layers of pullets; makes chicks and broilers grow. Our booklet "WINTER EGGS" Free.

This is another clincher to our claim that

Cabot's Sheathing

is not only by far the warmest, but the best paper for poultry houses. The double-ply is ten times warmer than common papers; it is indestructible by decay; it costs no more than the best papers, and it will not harbor insects or vermin. A house lined with it will turn out more eggs this winter and better birds next spring than by any other insulating method.

THE CYPHERS INCUBATOR CO.,

It is well known to readers of the newspapers that prices generally have been advancing steadily here of late, including those for labor, lumber, and metals of all kinds. As a result the prices of all manufactured articles must soon follow suit, including the prices of incubators and brooders. This simply cannot be helped; there is no way of getting around it. The Cyphers Incubator Co., Wayland, New York, therefore hereby give notice to interested persons that so soon as their new catalogue and price list for 1899-1900 is issued, which will be about Nov. 1st to 15th, the prices of their incubators and brooders will be increased fully 20 per cent. All who think favorably of buying a strictly first class incubator this fall or next winter will find it much to their advantage to immediately correspond with the Cyphers Co. in order to obtain what is wanted at the present low prices. The fact is that the Cyphers Co. is in a position **JUST NOW** to save a limited number of customers from \$7 to \$18 net cash, on single orders for incubators and brooders, depending on the size of machine bought. Write today for full particulars.

THE CYPHERS INCUBATORS ARE BUILT FOR BUSINESS.

That's the idea. There's nothing fancy, nothing foolish about them; just straight, practical, lasting, honest goods. They are positively warranted to last **TEN YEARS**, without repairs, and are guaranteed to **OUT-HATCH**, during three trials, any other make of incubator on the market—bar none.

To Mothers

LITTLE FOLKS is an ideal Monthly Magazine for Youngest Readers, Little Listeners and Lookers at Pictures. Its stories and rhymes and beautiful illustrations are all by the best authors and artists; they are all new and bright and good. Its fun is of a simple, sunshiny sort. All stories of a painful nature, or of bad children, are excluded. Little Folks is a story-teller, a playfellow, and all intelligent mothers who see it are delighted with it. Although only two years old, it has a larger subscription list than all the other small children's magazines combined. Price, \$1.00 per year. Full Prospectus and Sample Copy Free to Mothers.

The publisher of LITTLE FOLKS does not give premiums to new subscribers for their own subscriptions, but has made a special arrangement by which any subscriber to Farm-Poultry may secure a year's subscription to LITTLE FOLKS and a superb collection of fifty engravings, selected with great care from the most famous and beautiful works of Modern and Historic Art, Remarkable Scenery, Famous Men and Women, and Historical Events and Places. These engravings are carefully printed on heavy, fine coated paper, 7 x 9 inches, and are themselves worth much more than the price of the subscription. If you wish, the fifty engravings will be sent you on approval, with the understanding that you will send your subscription to LITTLE FOLKS if they please you. MANN'S NEW BONE CUTTERS MANN'S CLOVER CUTTERS MANN'S SWINGING FEED TRAYS MANN'S GRANITE CRYSTAL GRIT

Here is a combination that makes for the best interest of everybody that is interested in the poultry business. Success now days depends upon the adoption of all those new and improved methods that tend to double the profits. Improved breeds count for nothing without improved methods of feeding. The common hen, when properly fed, will double discount her fancy-bred sister who is treated under ordinary conditions.

GREEN CUT BONE doubles the eggs in the hen laying by reason of new and added vitality. It keeps

MANN'S NEW BONE CUTTERS prepare bone for hens in the best and cheapest form. They cut fast, fine and easy and last long. They quickly pay for themselves in the increased product.

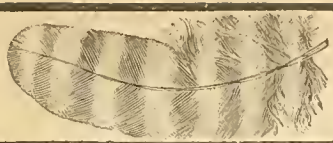

MANN'S CLOVER CUTTER is not a plaything, but a strong, durable machine with large capacity. It cuts clover in the best way for fowls. Cuts it either green or dry. Only one knife to keep sharp. Makes twelve cuts to one revolution of the wheel. Made with or without stand. Price, \$3. and \$10.

MANN'S SWINGING FEED TRAYS are made of galvanized iron. They stand on the floor or can be fastened against the wall. They keep the feed in and the dirt out. Hens can't wallow in them or roost on them. Saves its price in feed saved in a short time. Will not leak or rust.

MANN'S GRANITE CRYSTAL GRIT is just what it says—all clear grit; no sand, dust or dirt. It is hard and full of sharp angles and edges that makes it cut well and last long. As it contains iron it is also a tonic.

We sell for cash or on installments. Don't buy until you get our Free Illustrated Catalogue.

VICTOR.

needed to watch our chickens. Just as soon as a chicken cackles or makes a fuss as if something was after it our pup "Collie" is right on deck. She freed a pole cat for us one night, and found several little pole cats and a mink which we killed after she had found them for us. She is also learning to keep hawks away, having run one away the other day; and she is so much company for my wife around the house. She seems to understand just about what we say to her. Wishing you success. — W. S. GREGORY, Keota, Iowa, Sept. 17, 1899.

Moweaqua, Ill., Sept. 18, 1899. Potts Brothers, Parkersburg, Pa. I enclose a snap shot of the Scotch Collie bought of you last February. We think him the finest dog in this part of the country. So does every one that comes here. He is very handsome, and so intelligent and teachable that one cannot help but admire him. His eyes almost speak. We have named him "Victor," and think he is going to prove worthy of the name. I don't regret the money spent for him. The children never tire of him. He is always ready to play, or for service either. Wishing you great success. WM. J. SNYDER.

The Scotch Collie dog that I bought from you is doing fine. He knows everything, and we would not part with him for any money. When I had him two weeks I was offered \$25 for him. He did not mind very well at first, but he is all right now, growing better every day. We train him the best we know how. He weighs 32 pounds, and is six months old. My poultry were afraid of him at first, but everything is all right now. What I got him for was to keep the cats away from my chicks. All I have to say is, "Cats, Hero," and he is gone. Thanking you for your good treatment. — ROBERT R. HAMILTON, Peabody, Mass., Aug. 21, 1899.

We are much pleased with the Scotch Collie pup which we got of you last winter. As the time goes by and she grows older, we would not sell her for any money. She has paid for herself half a dozen times already. We think she is going to make an extra smart dog. She is just what we

Strain of Buff P. Rocks. Judge Chas. S. Flanders, of Concord, N. H., declares that I have the finest lot of Buffs that he has ever seen. You will remember that I won at Amesbury, Manchester, Milton, and Boston, last winter. Now I have bred birds for 28 years, and won my share of prizes, and when I tell you that I have birds this year for sale, that can win in the best company, I mean just what I say. My prizes are according to quality, and within reach of all classes. Buff Rocks and W. Wyandottes that can suit the most fastidious.

JOHNSON'S ANODYNE LINIMENT

All who use it are amazed at its power and are loud in its praise ever after.

SAFE It will cure every ache, every lameness, every soreness, everywhere; either Internal or External. It produces a permanent increase of vital activity in the parts, and by its electric energy excites the organs to more vigorous exertion, thus giving them the power to throw off, prevent and cure disease. There is not a medicine in use today which possesses the confidence of the public to so great an extent. The best evidence of its extraordinary value is the fact that in the state where it was originated more than eighty years ago it is still the leading family medicine. The sale there is steadily increasing. Its special province is the treatment of inflammation. Inflammation is an unsound condition of any part of the body, manifested outwardly by redness, swelling and heat; inwardly by congestion of the blood vessels and growth of unsound tissue, causing irritation, pain and disease. A majority of the diseases of mankind begin with or are accompanied by inflammation. It is unequalled. It is the best. It is the oldest.

SOOTHING It is the original. It is unlike any other. It is superior to all others. It is the great vital and muscle nerve. It is for Internal as much as External use. It is used and fully endorsed by all athletes. It is a soothing, healing, penetrating Anodyne. It is what every mother should have in the house. It is loved by suffering children when dropped on sugar. It is safe, soothing, satisfying; so say sick, sensitive sufferers. It is used and recommended by many physicians everywhere. It is the Universal Household Remedy from infancy to old age. It is safe to trust that which has satisfied generations after generation. It is made from the favorite prescription of a good old family physician. It is marvellous how many ailments it will quickly relieve, heal and cure. It is more than eighty years since it was originated. In all that time it has stood upon its own intrinsic worth, merit and excellence. Do not forget the very important and useful fact that it is strictly for family use. Every mother should always have it in the house, to relieve and cure the many common ills which will occur in every family as long as life has woes. For croup, colds, coughs, cramps and pain, it is the sovereign cure; always ready to use.
